Who we are . . .

Founded in 1972, the Morris Museum Astronomical Society (MMAS) is Morris County, NJ's oldest and most active astronomy club. The organization just celebrated it's 50th anniversary!

The MMAS hosts regular monthly meetings that include guest speakers and social events. The club also holds celestial and solar observing sessions for our members as well as providing outreach observing to schools and civic organizations throughout northern New Jersey.

The MMAS is proud to be a founding member of the United Astronomy Clubs of New Jersey.

Membership Application

Name:

Address:

Phone:

Email:
